

PRODUCT DESCRIPTION:

ULTRA HUMIC is a concentrated natural liquid formulation of Humic and Fulvic Acids that act as a powerful soil conditioner that will strongly promote good soil structure, root growth and improved nutrient uptake. **ULTRA HUMIC** also increases the beneficial microbial activity and water infiltration while reducing nutrient leaching by up to 30%, saving you money and increasing the effectiveness of your applied fertilisers.

APPLICATION RATES:

CROP	RATE L/ha	COMMENTS
Vegetable	5-10	First application after planting or when plants are at 6 leaf stage, then repeat applications every 20 days.
Fruit (Citrus, pomme, tropical and stone fruits)	10-15	First application after flowering, then follow with 2-4 applications during the season.
Turf	10-15	Repeat application every 6 weeks.
Pasture	5-10	First application to be applied at spring break, then follow up with 2-4 applications during the season.
Cereals, sunflowers, corn, tobacco, clover, lucerne, cotton, sugarcane	5-10	First application after planting/seeding. Second application 15 days later.
Foliar Nutrient Applications	1	Apply in conjunction with all nutrient foliar applications.

Application/Mixing: **ULTRA HUMIC** can be applied via boom spray, drip irrigation, over head irrigation or aerial applications. **ULTRA HUMIC** should be diluted with a minimum of 100 litres of water per hectare. **ULTRA HUMIC** is compatible with most Ag Chemicals however we do recommend that a compatibility test is conducted first.
